

Performance, Scale, and Versatility

The TrueNAS V-Series is a platform engineered to maximize versatility – delivering performance and scale without sacrificing simplicity.

Designed for Mission Critical environments, this is the big brother of the H-Series – delivering multiple storage media options at larger scales and higher performance for the modern enterprise.

TrueNAS V-Series Features

Massive Scalability

Support for up to 20 PB of NVMe storage or up to 35 PB of HDD storage with added expansion shelves.

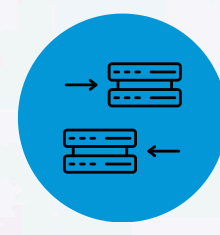

Tri-Mode Storage Flexibility

Consolidate storage choices in a single box with 24 front-loading bays supporting SAS HDD and Gen4 NVMe SSDs.

Next-Gen Performance

Includes 4 rear Gen5 NVMe drive bays for high-velocity data caching.

Advanced Data Management

Features Fast Deduplication, block copy, and RDMA support as part of the TrueNAS Enterprise suite.

Extreme Network Velocity

Support for high-speed fabrics up to 400 GbE.

Africaplus Direct Distribution Ltd (APDD) is an official partner and distributor of TrueNAS Open Enterprise Storage across Africa.
