F-Series

TrueNAS — OPEN ENTERPRISE STORAGE

africaplusdirect Distribution

High Performance NVMe Storage

The **TrueNAS F-Series** is engineered for maximum productivity, combining industry-leading speed, density, reliability, and scalability. Designed for high-performance deployments, it seamlessly integrates open-source economics with enterprise-grade hardware and support.

From media workflows to containerized applications, the F-Series delivers the power and flexibility required for modern IT environments.

Combining NVMe flash performance, a compact 2U design, and unified storage, the TrueNAS F-Series delivers high-speed access and simplified management via an intuitive web interface.

TrueNAS F-Series Features

Extreme Performance & HA
Leverages NVMe flash, ZFS, and up to six 100 Gb/s ports per controller for ultra-fast data movement, with dual-node HA providing automatic failover and uninterrupted operations.

Advanced Data Protection
Self-healing ZFS detects and repairs inflight data corruption, prevents bit rot, and safeguards data integrity at all times.

Intelligent Storage Efficiency
Provides built-in compression, snapshots, clones, and thin provisioning, with TrueNAS Adaptive Compression optimizing performance and capacity without wasting resources.

Built-In Snapshots & Replication
Includes configurable retention, restoration without extra licensing fees, protecting data against ransomware, accidental deletion, and ensuring efficient disaster recovery.

Africaplus Direct Distribution Ltd (APDD) is an official partner and distributor of TrueNAS Open Enterprise Storage across Africa.
