

Big business performance. Entry level pricing in one compact bundle.

The TrueNAS H-Series delivers the comprehensive feature set of TrueNAS Open Enterprise Storage, including High Availability (HA), at an entry-level price point.

Designed for SMEs, the H-Series offers optional dual controllers, hybrid or all-flash configurations.

TrueNAS H-Series Features

Scalable Performance & Capacity

The TrueNAS H-Series pairs RAM and NVMe caching with HDDs for cost-effective storage, and supports SAS or NVMe SSDs with up to 8 GB/s uncached throughput.

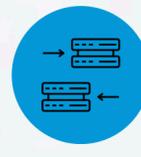

Intelligent Storage Optimization

TrueNAS uses compression, deduplication, and thin provisioning to maximize efficiency, dynamically adjusting compression based on resource use.

Self-Healing Data Protection

TrueNAS automatically detects and repairs data corruption to ensure data integrity.

Unlimited Snapshots & Replication

TrueNAS offers unlimited snapshots and replication with no extra licensing, plus built-in ransomware protection and seamless VMware integration.

Africaplus Direct Distribution Ltd (APDD) is an official partner and distributor of TrueNAS Open Enterprise Storage across Africa.
